

Reinforcement**Chapter 8****BLM 8-5****Solutions Terminology II**

Goal More practice in solution terminology.

What To Do Match each phrase, symbol or term in Column A with the correct term in Column B. Write your answer in the space provided. Each term is only used once.

Column A	Term From Column B	Column B
1. Water is the most common one.	1.	Dilute
2. The magnesium chloride in seawater is a _____	2.	Covalent bond
3. Expression for the concentration of solutions	3.	Solubility
4. Oil and water	4.	Concentrated
5. Meaningless term unless mass, volume or both are specified	5.	Hydrogen bonding
6. Soda water	6.	Immiscible
7. Benzene dissolves _____	7.	Parts per million
8. 100g of NaCl in 100g of water	8.	Non-polar molecules
9. No exact meaning for concentration of a solution	9.	Percent solubility
10. Concentration term for very small quantities	10.	Solute
11. Accounts for many properties of water	11.	Solution
12. A homogeneous mixture	12.	Molarity
13. Intermolecular bonds account for this	13.	Gas dissolved in water
14. Shared pair of electrons	14.	Solvent
